

FAMA.K/M

**FAMA pharmacy drawers -
highest quality to meet the greatest demands.**

Willach

Pharmacy Solutions

Modern pharmacies work with FAMA.

For more than 40 years Willach has been setting standards as the market leader in the production of pharmacy equipment. Europe's most modern pharmacies are using FAMA drawers instead of inefficient open-shelf storage. Willach's FAMA drawers provide the highest quality and precision with proven performance. Due to well thought-out design and advanced technology they can last a whole generation of pharmacists and even longer.

Benefits:

Professional appearance

The whole back-office work area becomes tidy, well organised and professional.

Space gain

Compared to open shelves, drawers achieve much higher storage density. That creates more space for additional work surfaces, consulting rooms or shelves for retail products.

Improved organisation

Product storage is clearly arranged so packs can be found more quickly. That saves time and minimises errors when dispensing packages.

Ergonomic work environment

The self-closing mechanism means that the drawer closes almost automatically. The integrated carriage step allows for easy access to the upper drawers.

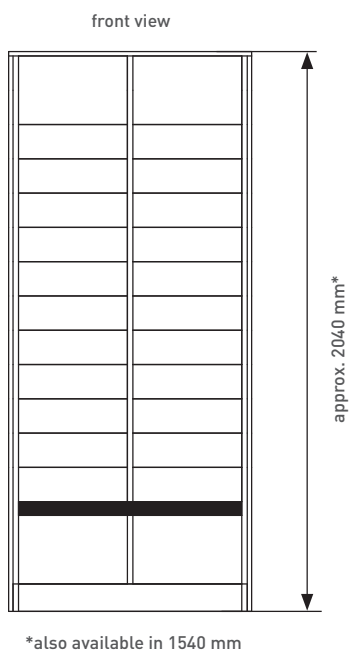

Safely protected

The drawers can be locked to protect the medicines against unauthorised access.

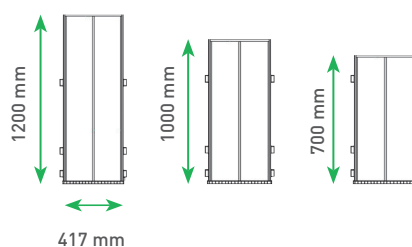

FAMA.K

drawers

Available depths:

1 bay of FAMA full-height drawers

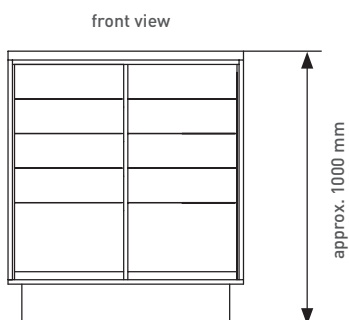

Standard configuration (example):

- 11 single-height drawers (125 mm)
- 2 double-height drawers (250 mm)
- 1 carriage step

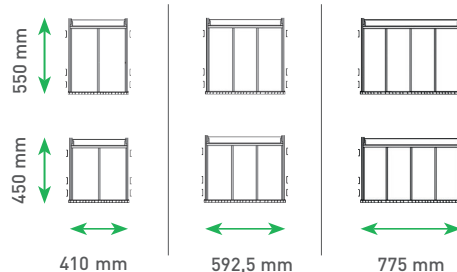

FAMA.M

drawers

Available depths and widths:

1 bay of FAMA underbench drawers

Standard configuration (example):

- 4 single-height drawers (125 mm)
- 1 double-height drawer (250 mm)

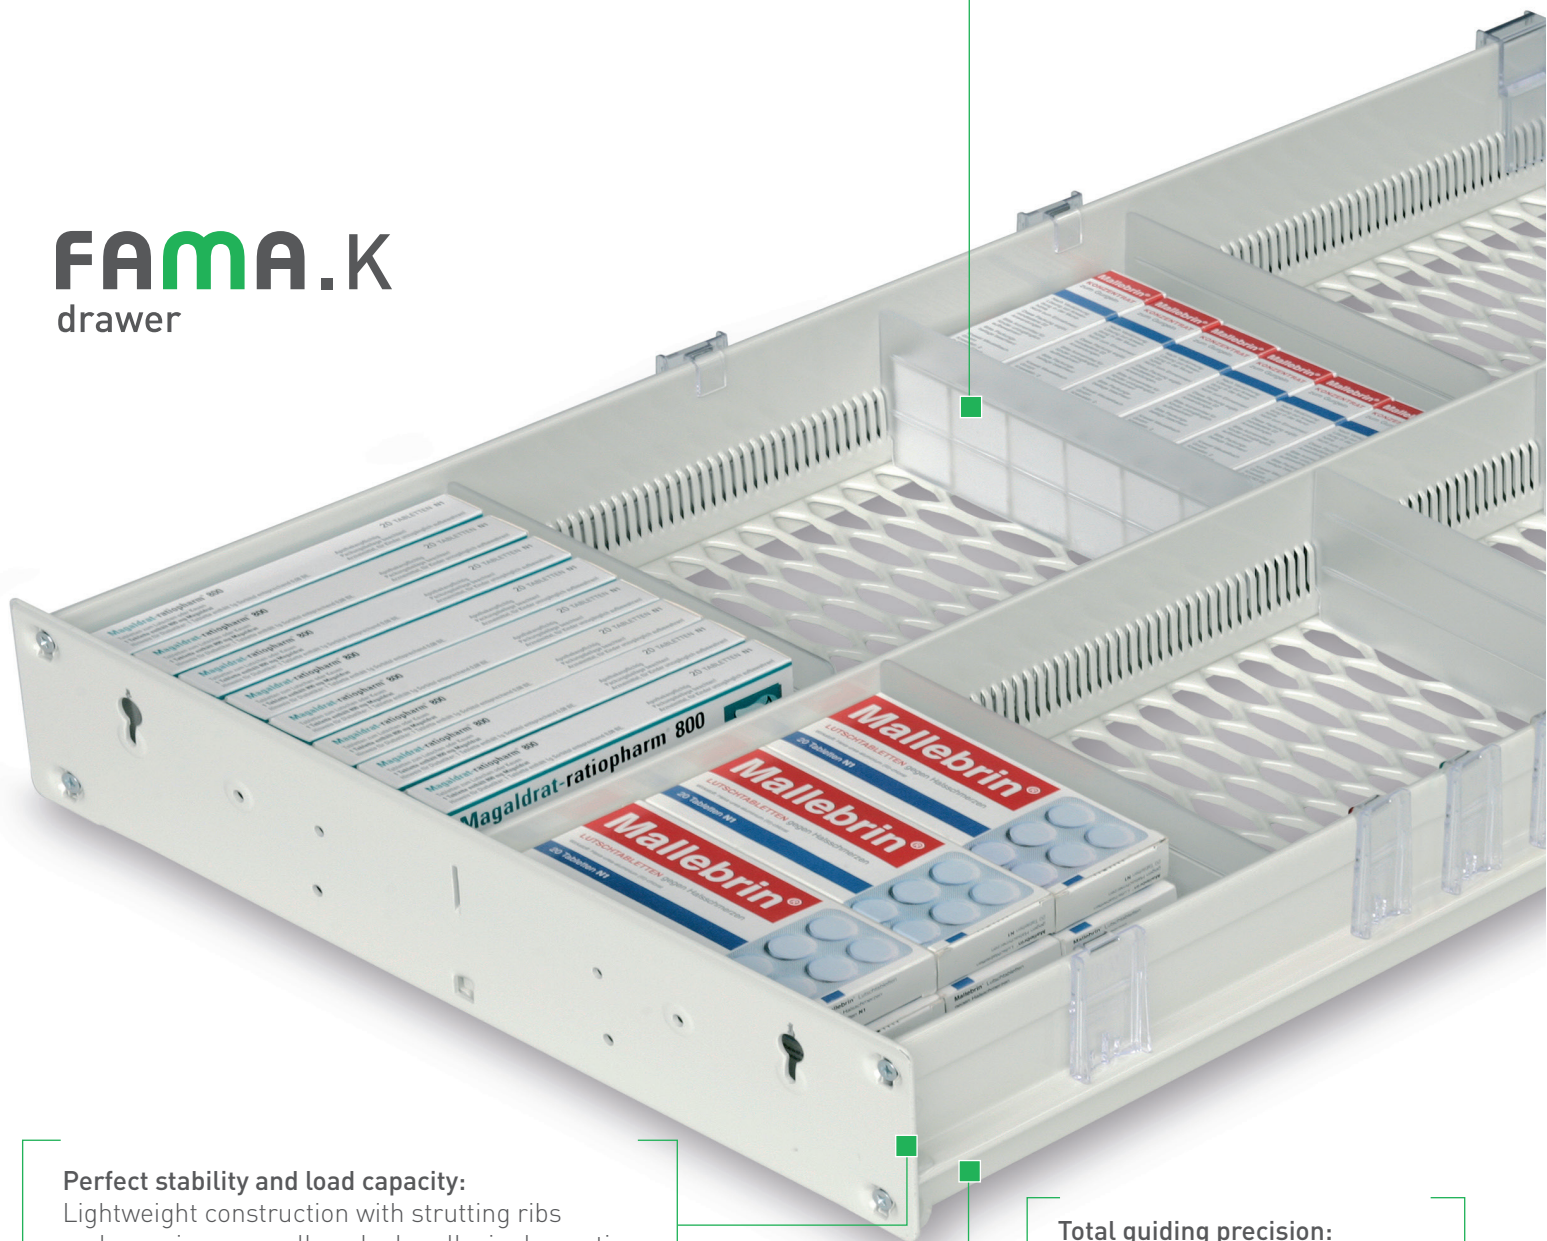

Effective organisation – well thought-out in the finest detail.

Fama K and M drawers are the ideal solution for quick access, great visibility, maximum use of space when stocking medicines and perfect ergonomic operation.

FAMA.K
drawer

Optimum adjustment for different package sizes:

Cross dividers of heights 70,
105 and 140 mm.

Perfect stability and load capacity:

Lightweight construction with strutting ribs and pressings as well as dual-wall, single-section sides.

High corrosion protection:

All cavities have been phosphatised or galvanised.

Outstanding surface protection:

Powder coating covers all edges, stops abrasion, prevents dust and provides easy care.

Total guiding precision:

Specially shaped precision tracks on both sides of the running surfaces ensure FAMA drawers are easy to open and self-close smoothly.

Practical and hygienic:

The wire-mesh base lets you see all the contents of the drawer from below and makes it considerably easier to clean.

Secure hold:

Rib-shaped slots for cross and grid dividers.

Fast overview:

Grid dividers with integrated label holder.

Safe identification of packages:

Flush label holders enable barcodes to be attached.

Fast locating:

Card holders help you find precisely the right package.

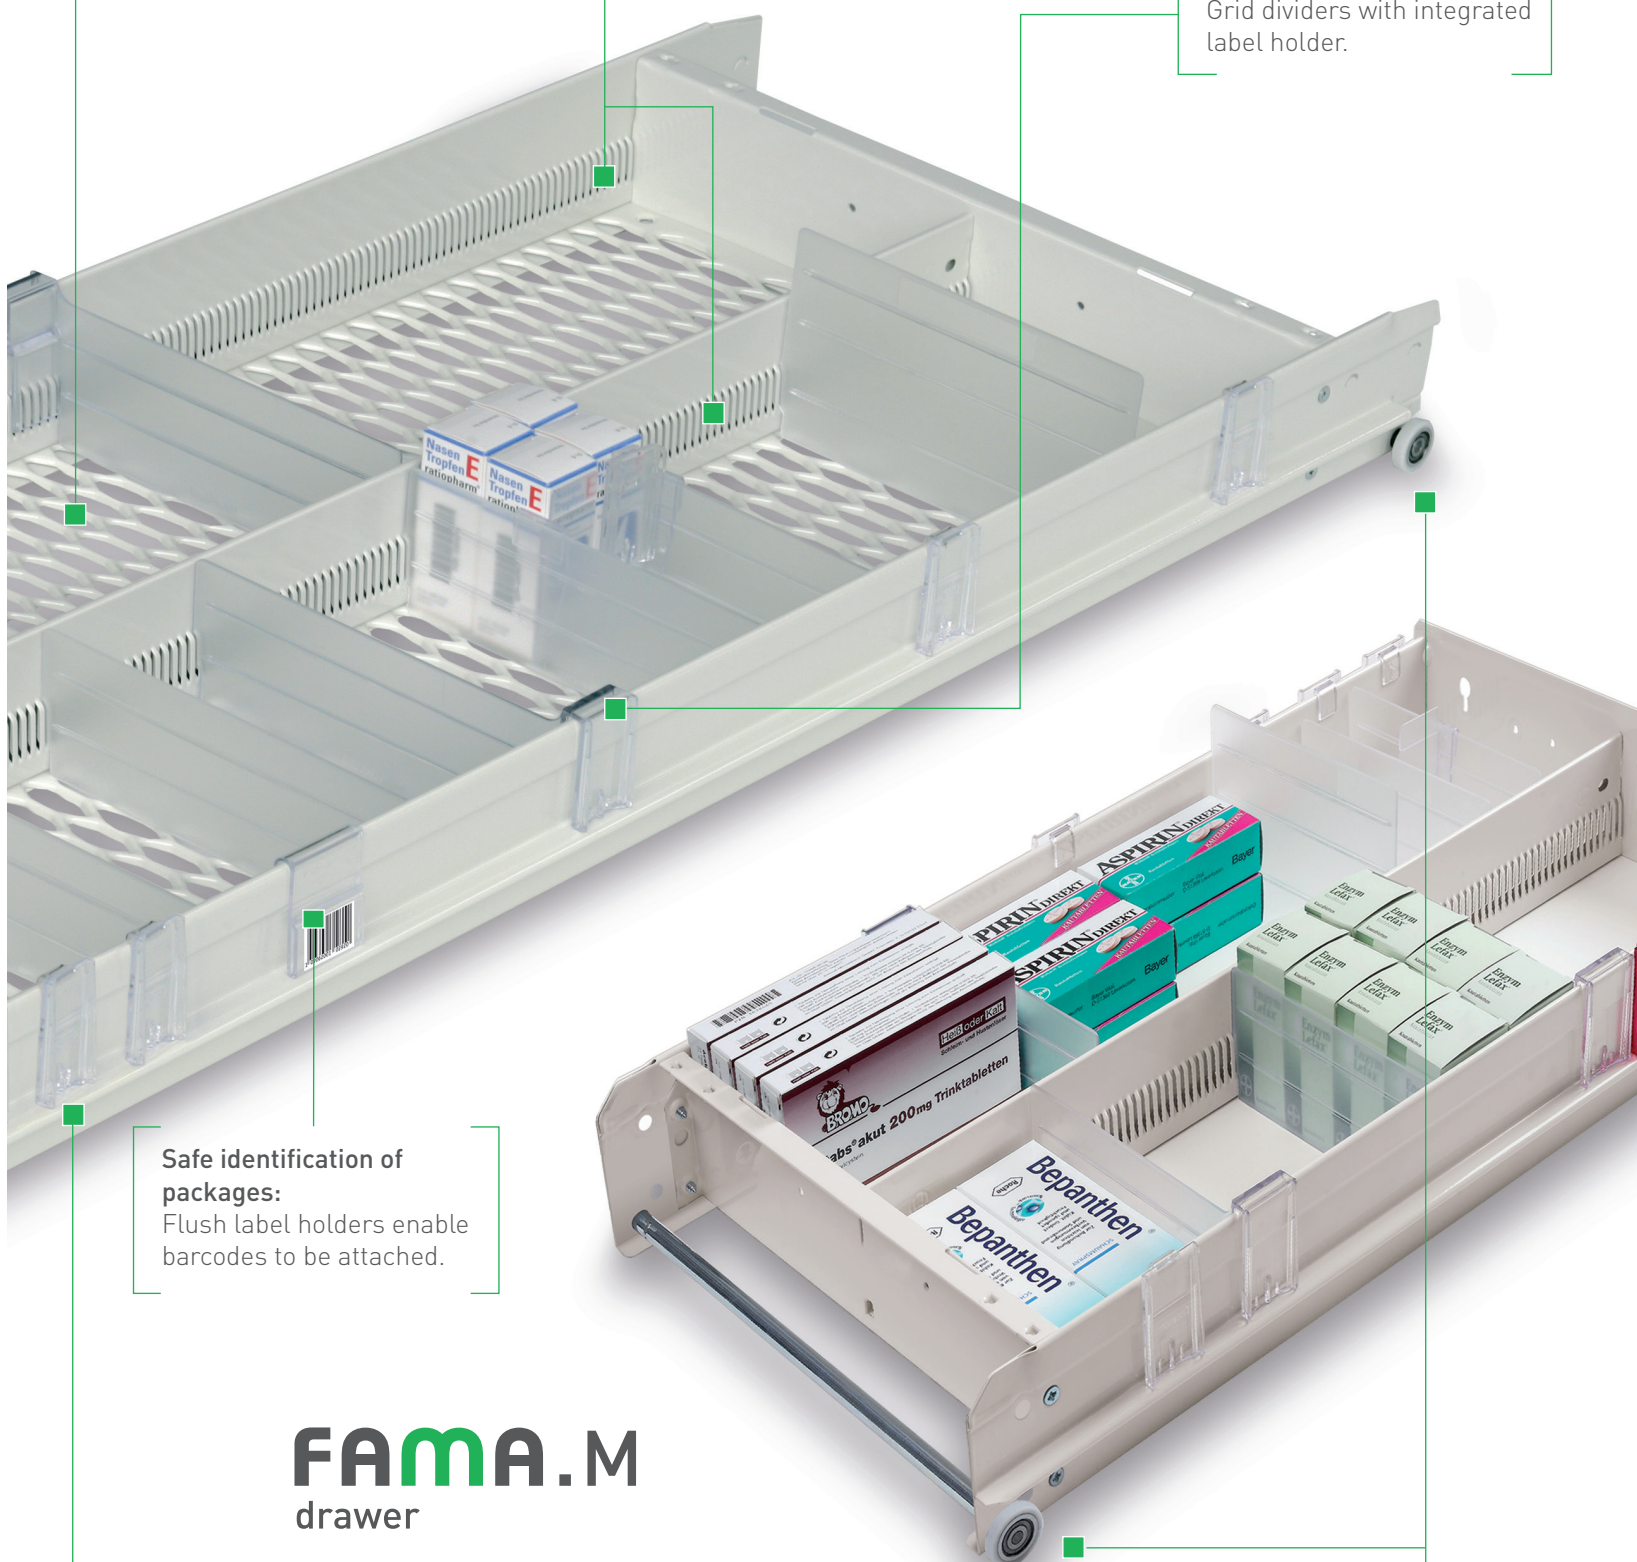

Smooth running:

For silent operation, plastic-sheathed steel ball bearing rollers run on powder-coated surfaces.

Durable steel ball bearings:

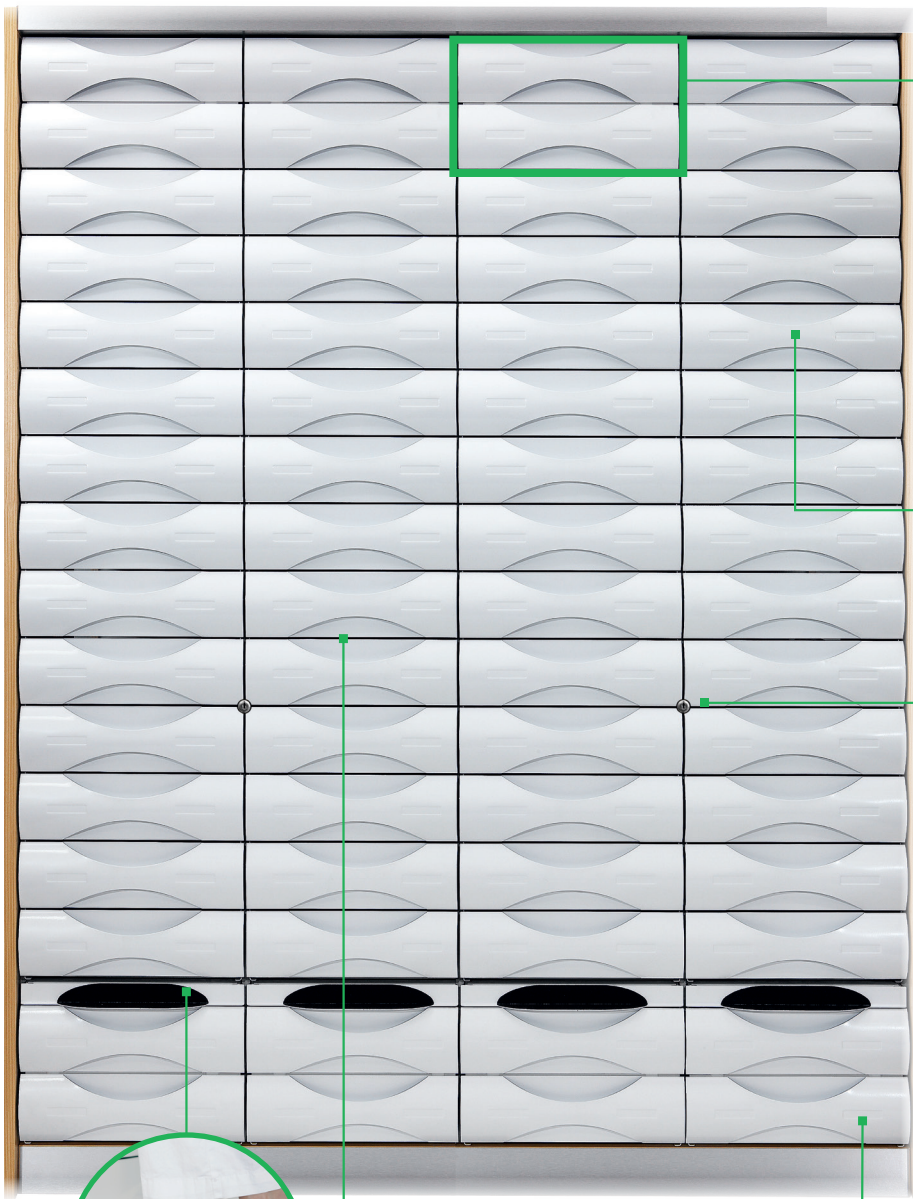

Dust-proof, sealed and prelubricated on both sides.

FAMA.M
drawer

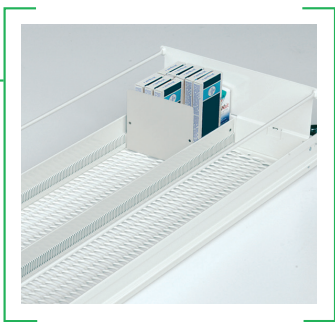

Intelligent design for the highest standards.

Specially designed running tracks enclose the left and right support rollers with an exact fit, ensuring that unique FAMA guiding precision. This means that the drawers open and self-close effortlessly.

Bulk item double-height drawer

For storage of large and heavy packages and containers.

Fama Vision fronts

Available in 28 colours.

Lockable

FAMA drawers are also available with locks to prevent unauthorised access and to meet statutory requirements.

Easy-find product system

Ensures that medicines are easy to find.

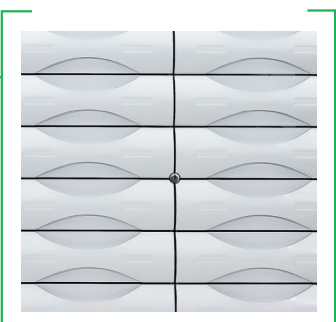

FAMA carriage step

Simple and safe access to the upper drawers.

Precision drawer-front alignment across all bays

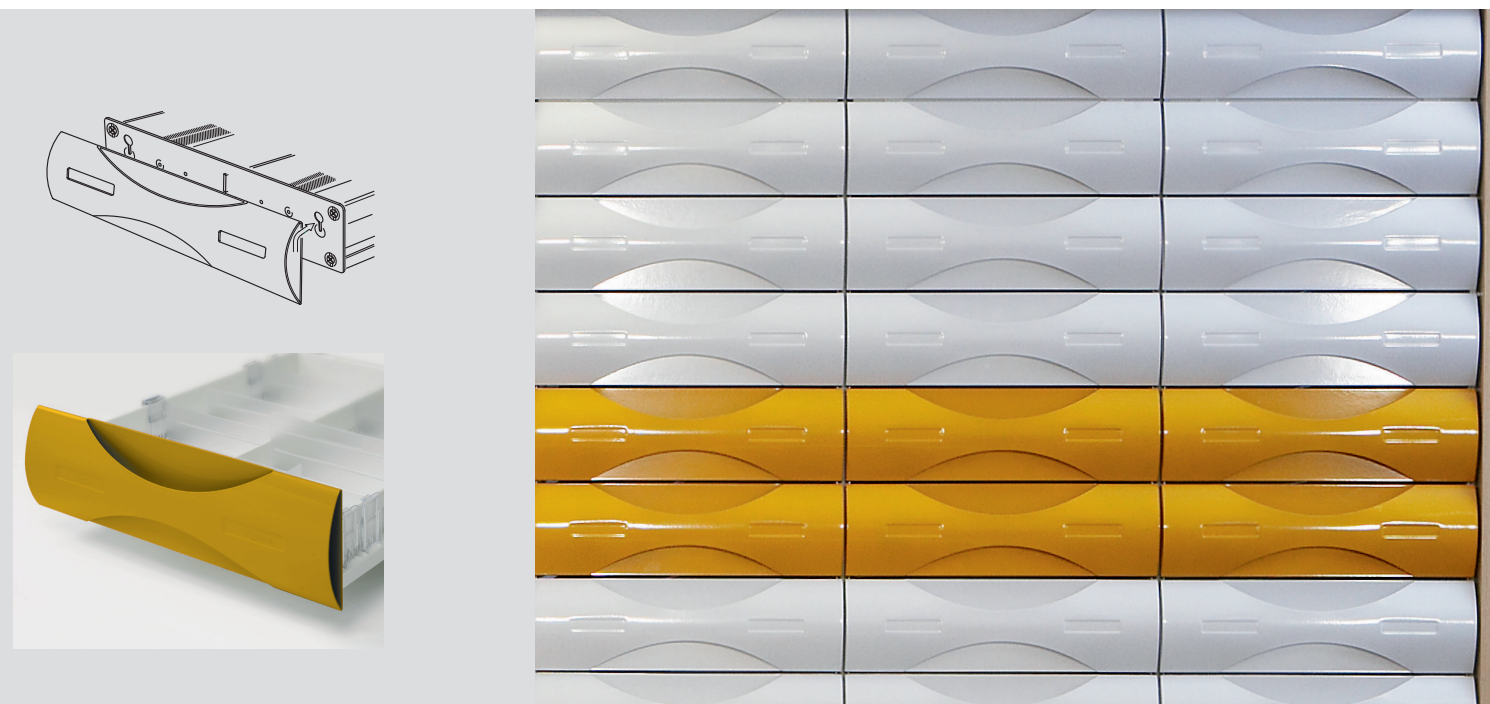

Ensures a uniform and seamless look.

Individual look in shape and colour.

It's your choice: there are 28 different colours for Fama Vision steel fronts*. Thanks to a clip-on mechanism, they are simple and cost-effective to fit. A clean joint pattern is guaranteed.

Alternatively, fronts made of wood or other materials can be fitted.

* Only available for c/c measurements 410 and 417 mm.

Willach Pharmacy Solutions.

The right prescription for every pharmacy.

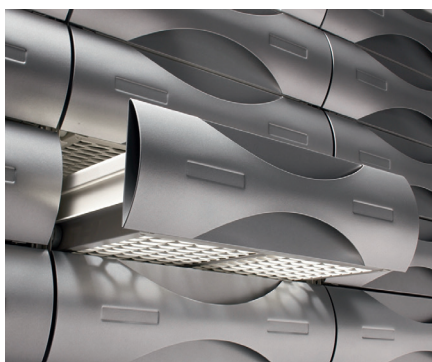

Willach is one of the world's leading companies for medicine storage and dispensing equipment. With FAMA and CONSIS, Willach can provide whole system solutions for the conventional and fully automated storage of medicine packages, for any type of pharmacy, for any size of pharmacy. Willach undertakes all product development and production in Germany to assure the highest quality standards.

CONSIS

robotic systems

CONSIS robots offer a tailor-made and highly efficient automation concept for your pharmacy. Whether you want to save time or gain space, CONSIS has the right solution for every situation.

FAMA

drawer systems

FAMA drawers provide fast access to packages, with good visibility, excellent space utilisation and ergonomically perfect operation. No other system offers you drawers that can store more packages within the same space.

FAMA

shelving systems

FAMA shelves were developed as a modular system to achieve the greatest possible flexibility. They can be adapted precisely to your individual requirements, storing the items in trays, drawers or on flat shelves. Worktops can be integrated as well.
